

DIRECTIONS TO NORTH PENJAJAWOC FOREST

Park in the Bangor City Forest Kittredge Road parking area - the lot all the way down at the bottom of the old dump hill. Pass through the trailhead gate and Great Horned Owl nesting area signs. At the first trail intersection turn left, heading west on the East-West Loop Trail. Less than a quarter mile in you'll come to a sign for the Deer Trail - stay to the left. If you come to an opening and cross a wooden bridge, you're heading in the right direction. Pass by the Quinn and Bobcat Trails, pass the Grouse Trail, and pass the Moose Trail. The North Penjajawoc Forest can be found by taking the next unmarked trail to your left (three quarters of a mile in from the parking lot). You'll see a big white pine to the right of the trail. The Bangor Land Trust sign is down this trail a short way beyond the pine tree. The Caribou Bog Corridor map above shows an overview of the preserved lands in the area and an **X** shows the approximate location of this trail entrance.
