

21-mile: Gentle terrain for almost all cyclists
34- and 49-mile: Moderate terrain, hilly, for intermediate cyclists

The 21-mile loop includes the villages of Kennebunkport and Kennebunk. The 34-mile loop takes you on Ocean Avenue, a beautiful ride along the coast of Kennebunkport. The leisurely 49-mile route has broad appeal. Beachcombers and sun worshippers will be thrilled with the many beaches along the way. Sightseers and photographers will relish the abundance of parks and benches strategically located to maximize views of the coastline, as well as majestic 18th- and 19th-century homes. History buffs can choose among museums and many other sites in the historic towns on the rides.

Starting Point: Wells Intermodal Transportation Center
